

# Magnetic drive pump

## Type MB15 / MB31 - PP/PVDF

|             |                        |                  |               |   |                                     |                              |
|-------------|------------------------|------------------|---------------|---|-------------------------------------|------------------------------|
| POS.        | 1                      | 2                | 3             | 4   | 5                                   | 6                            |
| Description | Bolt<br>Washers<br>Nut | Front<br>housing | O-Ring        | Static<br>front<br>bearing                      | Pumpshaft<br>static<br>rear bearing | Rotating<br>front<br>bearing |
| Material    | A2                     | PP<br>PVDF       | EPDM<br>VITON | Al <sub>2</sub> O <sub>3</sub><br>EPDM<br>VITON | Al <sub>2</sub> O <sub>3</sub>      | PTFEC                        |

|            |                     |                                 |                 |                    |      |         |
|------------|---------------------|---------------------------------|-----------------|--------------------|------|---------|
| 7          | 8                   | 9                               | 10              | 11                 | 12   | 13      |
| Impeller   | Internal<br>magnet  | Rotating<br>impeller<br>bearing | Rear<br>housing | External<br>magnet | Bolt | Bracket |
| PP<br>PVDF | PP<br>PVDF<br>NeFeb | PTFEC                           | PP<br>PVDF      | Fe<br>NeFeb        | A2   | PP      |
